 Protection updates

View information about your security intelligence version, and check for updates.

Security intelligence

Microsoft Defender Antivirus uses security intelligence to detect threats. We try to automatically download the most recent intelligence to protect your device against the newest threats. You can also manually check for updates.

Security intelligence version: 1.457.337.0
Version created on: 8/25/2026 11:25 AM
Last update: 8/25/2026 5:18 PM

✔ Security intelligence is up to date.
